Re: Policy Conversion Form, Please Transfer Our Account to Group 919

Dear Mr. Holt,

This letter shall be utilized to confirm the decision to transfer our SCIF account to the California Dump Truck Owners Association - Group 919. We are a member in good standing with the association and believe it is in our best interest to be included in their Group Workers' Compensation program.

As a member of the association, we recognize that the CDTOA is very proactive in providing insurance safety and claims information that can help our company control and reduce losses. In addition, CDTOA plays an active role in sponsoring and supporting safety and workers' compensation reform legislation that we also support. We have also found the information regarding various topics in the associations' monthly publication, the California Transportation News to be very informative; it is our desire to support the association to the fullest.

The CDTOA Group Renewal date is October 1st of each year. It is our understanding that SCIF will allow our company to transfer into 919 if our renewal date falls between October 1st and January 1st. If our renewal date falls outside of this window, please make sure that when our renewal date arrives, our account is transferred to 919.

We appreciate your assistance with this requested transfer.

Sincerely,
